

judicial bypass mechanism for me is awkward. It still is awkward, and it sounds like heart surgery when you come right down to it. But at any rate, aside from all those things, Senator Bohlke, from what you've told me and from what I've heard, this has never been introduced as a bill, right? Senator Bohlke, will you respond?

SENATOR BOHLKE: I am sorry, Senator Lindsay was over here.

SENATOR CROSBY: Didn't introduce, you've never introduced this as a bill?

SENATOR BOHLKE: No, I have not.

SENATOR CROSBY: Well, for that reason I am not going to support it today. I want you to understand it, and it's an issue I think, as I say, you might be on the right track because certainly the kids need to know, need to find out somewhere. I was thinking while we were...while I was listening, well, I'll get a whole bunch of these old forms from the schools when we get rid of their responsibility to do it, and I will just go around and drop them someplace, everywhere. I will just keep a bunch with me, and I will lay it out in case somebody needs to see it. I don't know, we get to that point where getting information out is very difficult because of this issue that we talk about. But I do think the medical profession is entitled to a hearing, and are you listening, Senator Bohlke? I think that the medical profession is entitled to a hearing, and for that reason, I am going to vote no on your amendment, but that's the reason. So I kind of hope...I think you are tossing something in here that needs more thought than just all of us thinking, well, great idea, let the doctors do it. Okay? Thank you.

PRESIDENT ROBAK: Thank you, Senator Crosby. Senator Witek.

SENATOR WITEK: Madam Chairman and members of the body, I, too, think it would be a great idea to have a hearing on this amendment and see definitely what the physicians feel, since this is an instance where an individual is not even requesting the information, they are just being given the information. So I would also like to see a hearing done on this. And I also wanted to ask Senator Bohlke a question about this.

PRESIDENT ROBAK: Senator Bohlke.
